How can Publons help me get promoted?

We make it easy to track your peer review activity and include proof of your expertise in your promotion applications.

"I have observed a change of culture [...] that has encouraged the addition of peer review activity to research applications. It is no longer enough to just be doing great research; you also need to demonstrate that you are contributing to your profession more broadly."  
- Dr. Amanda Salis

You can think of your Publons profile as public evidence of your service to your field.

یک نمونه کامل تکمیل شده

Laboratory instructor and researcher - Electrical Engineering, School of Pedagogical & Technological Education, Ath...

**BIO**

I am currently supporting the lectures at the laboratory of Power Systems at Aspeta in Athens, Greece. Before that, I was lecturing the courses of High Voltage Engineering and Electric Motor Drives at the Technological Educational Institute of Western Macedonia, in Kozani, Greece. Previously, I have been improving my competencies on international affairs and public policy at the Washington DC campus of the School of Advanced International Studies at John Hopkins University. Furthermore, my engineering degree at PhD level allows me to comfortably understand and address the complex economic and technical challenges of the modern world. In addition, I was employed by the European Commission as a researcher, dealing with important policy issues and supporting complicated international projects.
